

## What is Supply Chain Finance?

Supply Chain Finance is a way to optimize working capital while reducing supply chain risk.

### We offer two Supply Chain Finance Programs:

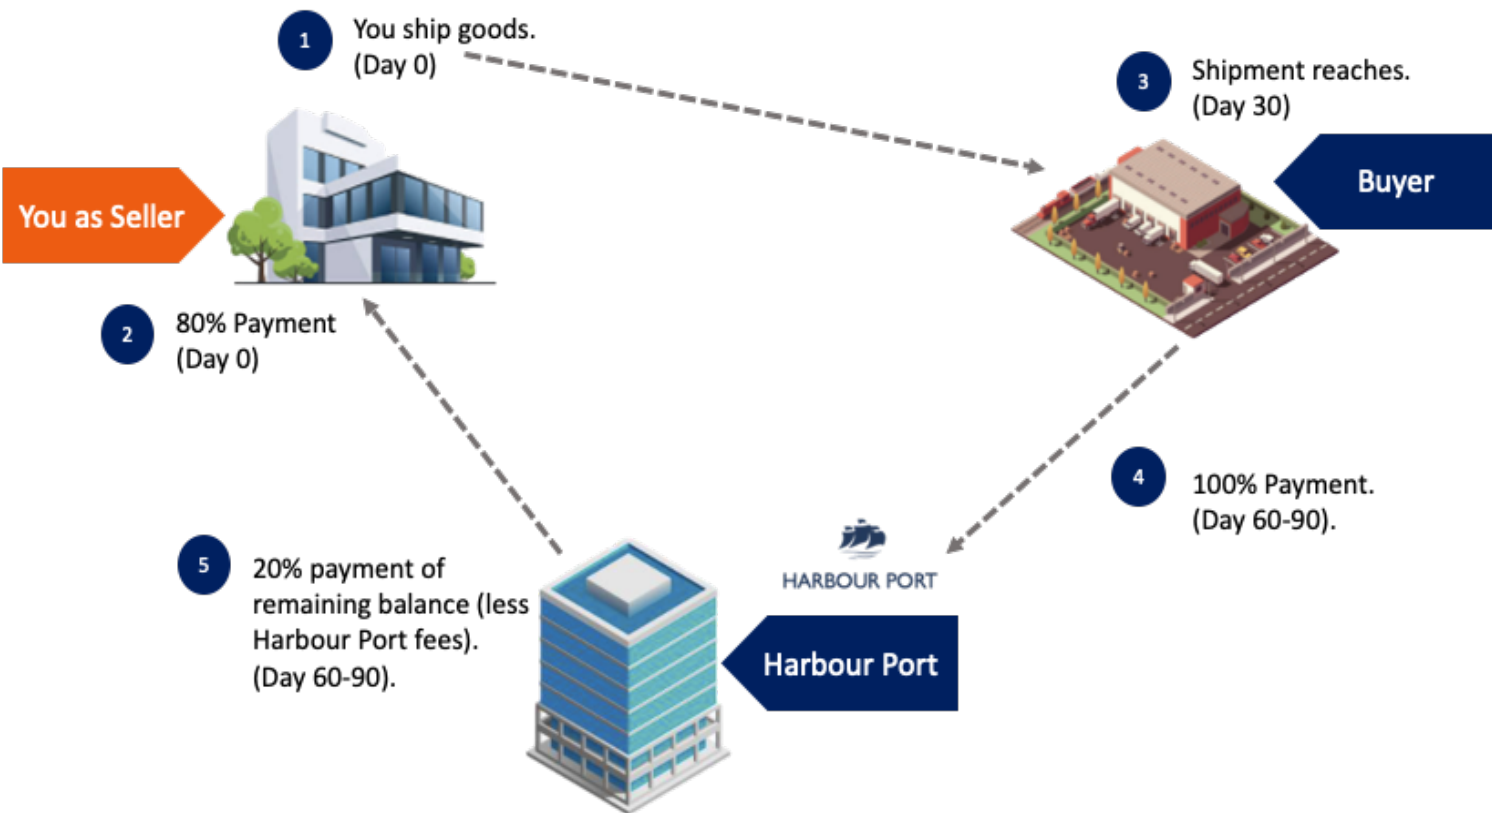

- 1) Our Procurement Financing Program for Buyers and our
- 2) You Ship, Get Paid Program for Sellers.

#### 1) Procurement Financing — we pay your supplier up front, you pay us later

Increasing the time it takes you to pay a supplier improves several financial metrics and most importantly, frees up cash that would otherwise be trapped inside the supply chain. Apply today and get a credit limit up to \$2 mm.\*

2) You ship. Get paid. Your clients get 60-90 days to pay us.

As a supplier, supply chain finance offers you a way to mitigate the risk of extending payment terms, accelerate your own cash flow, and increase sales by extending clients better terms. Harbour Port enables you to extend up to \$2 mm in credit terms per client.\*
